

Where in Iran can I get electrical distribution boxes made

Article Overview

You can get electrical distribution boxes made in Iran from established manufacturers such as Emen Ista Electric, Pars Industrial Control & Electric (PICE), AlfaBargh, and Adak Behin Niroo.

Key Manufacturers

1. Emen Ista Electric Company (EISECO) Located in Iran, EISECO specializes in electrical panels and junction boxes using SMC (Sheet Molding Compound) composites, which are durable and corrosion-resistant, suitable for high-humidity environments. They have extensive experience in infrastructure projects across electricity and water sectors, providing panels for industrial and commercial applications . Website: eiseco.com
2. Pars Industrial Control & Electric Co. (PICE) PICE has been manufacturing electrical distribution and control panels since 1990, including panels for factories, ships, and renewable energy systems. They offer customized design, PLC integration, and protection panels, and can handle both permanent and emergency powerhouses . Website: pice.ir
3. AlfaBargh Company Based in Isfahan, AlfaBargh is one of Iran's oldest electrical manufacturers, established in 1984. They produce low-voltage and medium-voltage panels, compact substations, MCC panels, and BMS/RTU systems, and provide installation and turnkey solutions . Website: alfabargh.com
4. Adak Behin Niroo Ltd Located in Karaj, Adak specializes in low and medium voltage switchgears, panel manufacturing, and turnkey EPC projects. They serve power plants, refineries, water treatment systems, factories, and commercial buildings, offering customized integrated solutions . Website: adakbn-co.com

Additional Options

For suppliers and distributors in Tehran, you can explore directories listing companies that provide electrical equipment, switchgears, and panel components, which may also offer custom manufacturing or assembly services .

Considerations

- o Material choice: Metal vs composite (SMC) panels depending on environmental conditions.
- o Voltage rating: Low-voltage vs medium-voltage panels.
- o Customization: Some companies provide PLC integration, protection relays, and turnkey installation.
- o Location: Isfahan, Karaj, and Tehran are major hubs for electrical panel manufacturing.

Where in Iran can I get electrical distribution boxes made

By contacting these companies, you can discuss your specific requirements, project scale, and compliance standards to get electrical distribution boxes manufactured in Iran.

Borna Niroo Karan Company (Bornika) provides a wide range of services for customers in the fields of: equipment calibration, energy
