

Which company makes the best Austrian-quality electrical distribution boxes

Article Overview

Top Austrian manufacturers of electrical distribution boxes include PCE Electric, Wieland, JEAN MULLER, and Konner & Sohnen, all known for high-quality, standards-compliant products.

PCE Electric

PCE Electric specializes in industrial and residential distribution boxes made from durable materials such as PC/ABS, stainless steel, and solid rubber, offering high impact resistance, thermal stability, UV and weather resistance, and chemical resistance. Their products include compact and robust designs like the ST. ANTON series, which are IP44 rated and can be customized for individual wiring needs. PCE also provides lockable options for safety and secure installations, making them suitable for both indoor and outdoor applications .

Wieland

Wieland focuses on pluggable and decentralized electrical installation solutions, offering distribution boxes for power, signal, and automation applications. Their products comply with IEC 61439 and IEC 61535 standards, ensuring high reliability and safety. Wieland boxes are designed for smart buildings and harsh environments, with options for ventilation and modular installation. They are ideal for projects requiring prefabrication, flexible configuration, and energy-efficient solutions .

JEAN MULLER

JEAN MULLER provides a wide range of enclosures and distribution boards, including service entrance boxes, small distribution pillars, and low-voltage cabinets. Their products are available empty or fully equipped, with components designed and produced in-house. JEAN MULLER emphasizes compliance with DIN EN 61439/DIN 43629 standards, offering robust construction, individual consulting, and tailored solutions for industrial and utility applications .

Konner & Sohnen

Konner & Sohnen offers premium-quality distribution boards suitable for indoor and outdoor use, supporting up to 7 device groups with a maximum current of 32A. Their boards feature overload and short-circuit protection, grounding bars, and sometimes integrated sockets, ensuring maximum safety. They are user-friendly, versatile, and compliant with EU regulations, making them a reliable choice for residential, commercial, and industrial installations .

Which company makes the best Austrian-quality electrical distribution boxes

Recommendation

For industrial and highly durable applications, PCE Electric and JEAN MULLER are excellent choices due to their robust materials and customization options. For smart building and modular installations, Wieland provides advanced pluggable solutions. For residential or small-scale commercial use, Konner & Sohnen offers reliable, user-friendly, and cost-effective distribution boards. Choosing the best company depends on your specific application, required IP rating, and customization needs.
