

Which company makes the best waterproof galvanized cable trays

Article Overview

Top manufacturers of galvanized waterproof cable trays include Eaton, Schneider Electric, Legrand, and Atkore International, known for durability, corrosion resistance, and compliance with industrial standards.

Leading Manufacturers

Eaton Corporation Eaton is a global leader in power management solutions, offering galvanized cable tray systems widely used in industrial, commercial, and utility projects. Their trays are designed for heavy-duty applications and provide long-term corrosion resistance, making them suitable for outdoor and harsh environments . Schneider Electric Schneider Electric provides robust galvanized cable management solutions for challenging industrial settings, including oil & gas and chemical plants. Their products are engineered to withstand extreme conditions while maintaining structural integrity . Legrand Group Legrand specializes in cable management systems that combine durability with aesthetic appeal. Their galvanized trays are resistant to rust and corrosion, suitable for both indoor and outdoor installations, and comply with international standards . Atkore International (Cope Cable Tray) Atkore's Cope brand offers some of the most durable galvanized cable trays, particularly for petrochemical, power generation, and industrial facilities. Their products are designed for heavy loads and long-term exposure to moisture and corrosive environments .

Technical Considerations

- o Coating Thickness: High-quality galvanized trays often use hot-dip galvanization with zinc coatings between 65-85 microns, providing long-term protection against rain, salt air, and industrial corrosion .
- o Standards Compliance: Look for trays tested under IEC 61537 or NEMA VE 1, ensuring they can support heavy cables safely and resist rust over decades .
- o Durability: Full-shaped HDG trays are preferred for outdoor or wet environments, as they cover all edges and holes, preventing corrosion and extending service life .

Other Notable Manufacturers

- o Marco Cable Tray Systems: Offers versatile galvanized trays adaptable to complex installations .
- o AFC Cable Systems: Provides reliable and cost-effective galvanized trays for commercial projects .
- o Snake Tray: Known for innovative steel and aluminum cable trays suitable for data centers and solar installations .

Recommendation

For industrial or outdoor applications requiring waterproof and corrosion-resistant trays, Eaton, Schneider

Which company makes the best waterproof galvanized cable trays

Electric, Legrand, and Atkore International are widely recognized for their quality, durability, and compliance with international standards. When selecting a supplier, consider coating type, thickness, load capacity, and certification to ensure long-term performance in your specific environment.

Backed by a vast industrial experience, we are instrumental in manufacturing and supplying the best

Made from high-quality galvanized iron, these trays offer exceptional resistance to corrosion, ensuring long-term durability and

Depending on environmental conditions, galvanized cable trays can last 20-50 years, making them ideal for long

Our cable trays are produced in fit for purpose materials like stainless steel, galvanized, aluminium and fibreglass (FRP/GRP)
