

Why Choose Moxa for Industrial Switches

Preview

Moxa provides a wide range of industrial Ethernet switches that feature industrial-grade reliability, network redundancy, strengthened security, easy management, and competitive price-to-performance ratios. With 35+ years experiences, Moxa is the leading supplier of industrial Ethernet switches. Our comprehensive portfolio includes unmanaged switches, managed switches, PoE switches. When it is necessary to broker multiple remote connections and cloud data pathways, it is recommended to utilize a tailored solution like Moxa Remote Connect Suite (MRC). For many new small- to medium-size localized machine automation applications, or for port expansion on the edge of existing. Moxa is a leading manufacturer of industrial networking, computing, and automation solutions that enable the "Industrial Internet of Things" (IIoT) by providing reliable connectivity for mission-critical applications. Available in unmanaged and managed Layer 2.
